

Personal Planning Application

Must – required for a usable MVP

As a user, I want to log into an account so I can have my plans on multiple devices.

As a user I want to make plans so that I can write down what I need to do.

As a user I want to set plans on certain days so that I can plan my week.

As a user, I want to be able to see my plans in my Callander app.

As a user, I want to set the importance of a task so I can complete the most urgent tasks first.

Should – important, but not required for MVP

As a user, I want to be able to repeat habitual tasks.

As a user, I want categories so that I can categorize my school, work, events, workout, and personal plans.

As a user, I want reminders when a task is upcoming.

As a user I want to mark my tasks complete so I can track my progress.

Could –optional enhancements

As a user I want to be able to color code my tasks to help distinguish what type of tasks in a day.

As a user, I want to be able to add notes to my tasks to add important notes.

As a user I want to be able to search for tasks so that I can find past or future tasks.

Won't - out of scope

As a user I want to be able to input multiple tasks and have them separate into different days

As a user I want to be able to share tasks so that I can make plans with my friends or collaborate with others.
